

Hadi Bux Laghari

*Growing bananas under harsh conditions, drought, cold and salt stress*

Hadi Bux Laghari is the Technical Manager of a commercial farm in the Sindh province of Pakistan. Within two years of joining the farm, he developed a programme to manage Bunchy Top that is now used throughout the province. He also developed protocols to minimize the impact of the harsh climate on the bananas, increase productivity and improve fruit quality. He graduated in Plant Pathology from Sindh Agriculture University in 1998.
