

Climate Change: Workshop on Impact and Mitigation Strategy for the Temperate Fruits in the Tropics and Subtropics

August 14, 2018, Istanbul/TURKEY
Istanbul Congress Center, Harbiye/Sisli

PROGRAM

August 13 , Monday

Time	Speaker	Heading
18.00-18.20	Mr. Fazil Dusunceli (FAO – Agricultural Officer)	Climate Change
18.20-18.40	Dr. Gregory Reighard (University of Clemson)	Strategies for Producing Temperate Tree Fruit under Milder Winter Temperatures
18.40-19.00	Dr. Eike Luedeling (University of Bonn)	The Challenge of Warming Winters' Do We Understand Tree Dormancy Enough to Prepare Deciduous Orchards in Warm Places
19.00-19.20	Dr. Marisa Badenes (Instituto Valenciano de Investigaciones)	Studies on Adaptability of Fruit Trees to Climate Change
19.20-19.40	Dr. Giuliano Finetto (Inst. for Agricultural Science, Verona)	Are the Chilling Temperatures the Only Climatic Factor to Overcome Endo-dormancy in the Temperate Fruit Trees
19.40-20.00	Dr. Ayzin B. Küden (University of Cukurova)	Climate Change Affects Fruit Crops
